¹ Definitions of Landfill Operation Types:																				
Number of Facilities by Class																				
Total Class I Facilities 4																				
Total Class II Facilities 5																				
Total Class III Facilities 1																				
Total Class IV Facilities 2																				
Total Class V Facilities 0																				
Total Class VI Facilities 0																				
Total Facilities 12																				
Class I Landfill: a municipal landfill or a commercial landfill solely under contract with a local government taking municipal waste generated within the boundaries of the local government and receiving, on a yearly average, over 20 tons of solid waste per day.																				
Class II Landfill: a municipal landfill or a commercial landfill solely under contract with a local government taking municipal waste generated within the boundaries of the local government and receiving, on a yearly average, 20 tons or less of solid waste per day.																				
Class III Landfill: a non-commercial landfill that is to receive only industrial solid waste, but excluding farms and ranches.																				
Class IV Landfill: a landfill that is to receive only construction/demolition waste, yard waste, inert waste, or dead animals but excluding inert demolition waste used as fill material.																				
Class V Landfill: a commercial landfill which receives any non-hazardous solid waste for disposal, some Class V landfills may have waste restricted by permit.																				
Class VI Landfill: a commercial landfill which is restricted to construction and demolition waste
